

### ❖ **Description**

USB 3.0 Type A male-to-male cable connects peripherals to your PC and laptop for data transfer at up to 5 Gbps. This is 10 times faster than USB 2.0. Built with durable pvc housing and corrosion-resistant 24K gold-plated connectors, aluminum foil foil and braid shielding help reduce interference, ensuring fast and stable data transfer. Just plug and play, no need to install authentication software

### ❖ **Features**

Supports superspeed transmission rates up to 5Gbps

10,000+ times bending test without breakage/p>

Blue Insulation nickle plated connectors

Multi-layer shielding provides stable signal transmission

Plug-and-play for computers, printers, scanners and other USB A peripherals

Certified by USB-IF officially and compatible with various devices

### ❖ **CONNECTOR TYPE**

USB 3.0 Type A Male to Type A Male
