

❖ DESCRIPTION

This 6ft (1.8m) Mini Display Port to HDMI cable extends or mirrors an Ultrabook, laptop or desktop computer equipped with a Mini Display Port to a monitor projector or HDTV with an HDMI port. Transfer UHD audio and video from your computer to your TV more easily. The Mini DP to hdmi cable supports HD video and audio transmission up to 4K, so you can watch live HD on the big screen with your family! Please note that it can only convert signals from Mini DisplayPort to HDMI. this is not a bi-directional adapter.

❖ FEATURES

Mini DP to HDMI cable is not bi-directional: not support HDMI to Mini DP

Enjoy 4K 60Hz video resolution , transfer 4k video and audio to big screen

Nylon braided design enables the cable to withstand repeated bending and prevents cable breakage

24k gold-plated connector has stable heat dissipation..

Plug and Play, easy to use, no software required.
