

❖ DESCRIPTION

Experience fast and stable data transfer with our 4-in-1 Transparent USB A+C to USB 3.0 Hub. This multifunctional hub is equipped with a reliable 5V power supply, ensuring consistent performance even when connected to multiple devices. The innovative transparent shell reveals the high-performance GL3510 chip with technology aesthetics. With its compact design and versatile dual interface support, our hub makes technology not only accessible but also visually appealing.

❖ FEATURES

USB A+C input compatibility adds to the versatility.

Crystal clear shell design and Icon engraved design offers technology aesthetics

Efficient 4 ports USB 3.0

High-speed USB 3.0 ports ensure 5Gbps fast data transmission.

Enhanced with high-performance GL3510 chip for efficient data processing and fast transmission.

Embedded 5V power supply ensuring stable power during massive device connections

Durable braided jacket cable for superior protection and longevity.

Compact and portable design for convenience on-the-go.

Support the massive USB devices, like keyboard/mouse/U Disk

Compatible with Windows, Mac OS , Liunx
