

❖ DESCRIPTION

7 ports USB 3.1 Super Speed Hub allows you to connect USB devices such as digital cameras, phones, external hard drives, flash drives and printers to one convenient place. Just a Type-C connector on your computer, you will get all the connectivity while staying clutter-free effortlessly. With a slim, strip-shape design, it saves you precious desktop space. It's extremely portable and easy to move between systems or take on the road. NOTE: 1. The hub supports a maximum of 2 hard drives, but for best performance, the power demand of connected devices shouldn't exceed the total USB output of 5V 0.9A. Devices with high power demand such as Apple USB SuperDrive shouldn't be connected to the hub.2. Not recommended for charging tablets and other devices with high power demand.3. PD fast charging is only for laptops but not for phones S9 / S8 / LG/HTC etc. Phones only support normal charging Description--- Aluminium fineness sandblasted housing with build in USB 3.1 extension cable---Type-C Compatible, works with the latest computers and smart devices with Type--C ports---7 downstream ports support data transfer rates up to 5Gbps for your flash memory, SSD, 2.5"/3.5" mobile hard disk drive, Camera etc., you'll be able to transfer a HD movie in seconds. Also backwards compatibility with USB 2.0 / 1.1.Features the sleek yet durable apple-style aluminium fineness, which Type C adapter Works well with the latest 2015 new Mac book, Nokia N1, Chrome Book Pixel and other USB C Devices.
